## Extension for my community

Participants will discuss and present ways that community members can stay safe when using local waterways.

### Equipment:

- ☐ Poster paper
- ☐ Textas and pencils (grey lead and coloured)

### Resources/links

Pictures of different waterways

- 1 Discuss the different groups that use the waterways and the activities they participate in (i.e., swimmers, boat/ jet ski users, fishermen, artists, Indigenous community, fitness groups, farmers).
- 2 In small groups, participants should come up with a list of responsibilities for each group so that everyone can stay safe at the waterway (i.e., boats should not go near swimmers, follow safety rules, swimmers should not jump off the pier).
- 3 Participants will then make posters (either individually or in groups) to encourage waterway users to stay safe and practise responsible actions.
